# GER'QUIA ABNER

**FRONT-END UI DEVELOPER | VISUAL DESIGNER | TAGDESIGNS FOUNDER**

contact@gerquiaabner.com | LinkedIn | gerquiaabner.com

## PROFILE

Designer and independent business owner who founded TAGDesigns in 2014. Leads client website projects from discovery through implementation and review. This portfolio demonstrates front-end interface work with React, TypeScript, JavaScript, Sass, CSS, and Vite.

## UI & DEVELOPMENT SKILLS

Front end: React, TypeScript, JavaScript, HTML, CSS, Sass/SCSS, Vite, Tailwind CSS, Wouter, responsive layouts
Interface work: reusable components, theme tokens, search and filter controls, form validation, keyboard-operable controls, loading, empty, error, and confirmation states
Client platforms: custom WordPress themes, business-specific plugins, responsive business websites, project coordination and quality review

## PROFESSIONAL EXPERIENCE

**TAGDesigns Multimedia Group | Founder & End-to-End Developer | 2014 - Present**

- Lead client projects from discovery and requirements through creative direction, web implementation, revisions, quality review, and approval.
- Build and maintain business websites, custom WordPress themes, and custom plugins; coordinate schedules, deliverables, vendors, and client communication.
- Review desktop and mobile experiences, navigation, readability, visual consistency, and core functionality before delivery.
- Translate client goals and direct feedback into clear requirements and practical digital solutions.

**FedEx | Seasonal Package Handler | October 2025 - January 2026**

## SELECTED INTERFACE WORK

- Event registration demo: Original React and TypeScript portfolio prototype with three configurable brand themes, searchable and filterable sample events, agenda views, and a validated multi-step registration simulation.
- AvianTrader: Custom WordPress theme and business-specific plugin for species, breeder, and location search, listings, profiles, and scoped review outcomes.
- Georgia Technology Systems: Custom theme and Master Plugin with service pages, project examples, and an interactive facility-systems explorer; desktop and mobile checks are documented.
- Popular Intrxvert: Storefront interface with featured garments, product details, size options, cart actions, and editorial pages.

## EDUCATION

High School Diploma | Saginaw High School | 2007
